## WORK EXPERIENCE

### 72 DRAGONS | FRONT END DEVELOPER

Remote, IN | Sep 2022 – Current

- Demonstrated strong leadership by managing a team to successfully deliver projects such as websites, CMS tools and dashboards.
- Led a team of 5 developers to deliver 10+ projects, achieving a 95% client satisfaction rate.
- Optimized web performance, reducing loading times by 30% and improving user engagement by 20%.
- Developed frontend solutions using HTML, CSS, JavaScript, PHP, and ReactJS to create user-friendly and responsive designs optimized for mobile, tablet, and desktop platforms.
- Created dynamic websites tailored to client needs, ensuring web performance and scalability through clean and efficient coding practices.
- Applied design patterns and best practices to enhance the maintainability and functionality of web applications.
- Contributed to product development by collaborating with backend developers to resolve technical issues and deliver seamless solutions.
- Conducted comprehensive testing, including functional, user, performance, and device testing, to ensure high-quality deliverables.
- Optimized web performance by enhancing loading times, improving design, and utilizing reusable components.
- Authored detailed project launch documents, outlining features, milestones, and deployment strategies for successful product releases.
- Leveraged advanced libraries like D3.js and Plotly.js for interactive data visualization, improving user engagement and analytics capabilities.
- Fostered a collaborative environment, ensuring effective communication across teams to meet project objectives.

### RC DIAMONDS | WEB DEVELOPMENT INTERN

Durgapur, IN | Apr 2021 - JUL 2021
